# All WOMEN 24-hour Hack & Chat

## 2024 Brings Even More Cyber Experiences for Women

Wicked6 is the signature event for PlayCyber's Women's Global League. Since its inception in 2019 as an in-person tournament that brought in 6 co-ed teams from across the nation, in 2022 it evolved into a global 24-hour hack and chat that brings more than 1300 women and girls from over 25 different countries on 6 continents.

Now in 2024, we are expanding the program to bring back the TOURNAMENT virtually but better, all women. We hope this encourages women in high schools, colleges, at the beginning of their cyber careers, and throughout their careers to play more cyber games, meet more women in cyber and invite more women to consider a cyber career.

### IMPORTANT STATS FROM PREVIOUS WICKED6 BY YEAR AND OVERALL:

**2023**
**1304**

REGISTERED

**2022**
**1007**

REGISTERED

### LANGUAGES

- ARABIC

## 2024 Brings Even More Cyber Experiences for Women

Wicked6 brings a wonderful mix of global speakers of all levels to conference talks. Each session celebrates amazing women from each region of the world speaking on current hot topics in cybersecurity that are important to women across the globe. Speakers are encouraged to speak in native languages that are then translated into English for the general audience composed of women and men. Group ticket pricing is available on request.

5 AM (+1 day) JST

# Let's Get More WOMEN into the Game

## Cyber Games are a critical part of the cyber workforce pipeline.

Games provide a fun way to try out different domains, learn new skills through doing or watching, help to build confidence in skills learned in classrooms, and enable players to practice with cyber tools and tactics.

The value of Hack and Chat style play is to create a safe place for women to experience cyber games at their pace. We have brought back the TOURNAMENT for the more competitive women with a monthly practice on ramp for 6 months. The Final TOURNAMENT will be streamed during Wicked6 event.

Wicked6 provides women across the globe with 6 different style game platforms that support various levels of skill and help to level up cyber careers. Games are provided for 24+ hours. Some are competitive while others are for fun and can be played as a group.

## Previous Game Providers Brought Breadth and Depth in Cyber Skills

Game	Skill Level	Player Format	Summary
	Beginner to Expert	Individual	Capture-the-flag style cyber range consisting of over 125 multi-disciplinary challenges
	Beginner	Individual	Command line experience as well as the basics of offensive and some defensive cybersecurity tools and tactics
	Beginner to Intermediate	Individual and Team	Jeopardy-style Capture the Flag competition - cryptography, networking, reconnaissance, reverse engineering, and web
	Beginner to Advanced	Individual and Team	Reverse engineering, web security, digital forensics, network security and more
	Intermediate to Advanced	Individual	Cross-site scripting (XSS), password cracking, authorization bypass, business logic abuse, SQL Injection, and others
	Beginner to Expert	Individual and Team	Threat hunting and incident response skills inside live Linux and Windows VMs

# Hack the BIAS

## ALL Women CYBER Team Practice Season & Tournament

PlayCyber Global League announces the first-time ever **ALL WOMEN GLOBAL TEAM** Practice Season and Tournament. Similar to US adult sports leagues, we will now offer an optional practice season for women's teams to encourage newbies to join.

- November through February - Preseason Practice Challenges
- February - Virtual qualification game to determine final six teams
- March - Final Tournament and LIVE Stream at the Wicked6 2024 Hack and Chat.

Teams will practice and compete in a Red versus Blue competition with a focus on career skills in incident response, forensics, pwn, and more. Players will earn swag throughout the season, CPE recommendations, bragging rights, badges, and build bridges with a tribe of women with a shared love for cyber and games.

Teams will have choice of **three pricing options**.

### Option 1: Build a New Team

Register a team in September and take advantage of all the benefits plus plenty of time to practice together. A PlayCyber advocate will work with you to set up your team space on Discord, recommend a practice schedule, provide links to online resources, and schedule mentor meet ups monthly. This option is perfect for a cyber skilled new team that needs a bit of time to get acclimated to playing Red versus Blue.

**\$880 per team (\$995 value)**

#### Preseason + Games Registration

Price includes for all players:

- Onboarding (dedicated, team Discord channel)
- Listing on the website of team name, description and players (names or handles)
- Monthly practice challenges for six months
- Swag, Badges, and Completion certificates can be used to support CPUs
- Entry into qualification rounds
- Opportunity to qualify and play in final championship (virtually at Wicked6 2024)

**PRACTICE  
MAKES  
PERFECT**

### Option 2: Free Agent (\$175)

Register as a free agent, an individual who would like to join a team, either for the full season or just the game option. A PlayCyber advocate will connect you with possible teams contingent on availability. This option is perfect for an individual who is interested but not well connected with other women in the field.

**Costs will be assign based on the team you join.**

# Hack the BIAS

## ALL Women CYBER Team Practice Season & Tournament

### Option 3: Just Play

Register a team by January to compete in the virtual qualifier for an opportunity to play in the final tournament. A PlayCyber advocate will work with you to set up your team space on Discord, get you scheduled for the quick practice round to acclimate you to the game, and play in the qualifier. This option is perfect for a cyber skilled, red versus blue savvy team that just wants to play, have jerseys and gain recognition.

**\$130.00 per player**

**Games Registration Only**

Price includes for all players:

- Listing on the website of team name, description and players
- Entry into qualification rounds
- Opportunity to qualify and play in final championship (virtually at Wicked6 2024)
- Option to purchase Personalized Jerseys

### Team Information:

Teams should include at least 5-8 players and identify a captain. Captains are responsible for registering for games provided during season on behalf of the team. They organize meet ups and ensure all vital data is provided to PlayCyber and that the players are aware of rules and requirements (such as reading and signing Code of Conduct). The PlayCyber team will provide the practice environments, challenges, and program elements to make it turn key for your team.

**NOTE:** There is no formal training provided as part of this program. Players are expected to self-form, meet periodically, and practice with provided challenges. We will provide monthly mentors to help with particular topics. This program is specifically designed to help NEW teams form.
